Luka D. Stojiljković

Software Engineer, Belgrade, Serbia

stojiljkovic.d.luka@gmail.com +381 64 904 0342 lukastojiljkovic.github.io/CV github.com/lukastojiljkovic LinkedIn

Final-year Computer Science student building LLM agents, full-stack products and desktop apps. Led a 25-person team on a full-stack banking platform and shipped five open-source desktop apps with installers.

Experience

Software Developer, AI in AEC May 2025 – Jan 2026

AI consulting startup for architecture, engineering and construction

- Built **Neostack**, a prototype web application that helps firms catalogue their software stack and licence usage.
- Built **AI in AEC Flow**, an internal platform for time, task and revenue tracking.

Team Lead, BANKA_2 2025 – 2026

Software Engineering capstone, RAF

- Led a 25-person team delivering an enterprise banking platform: Spring Boot services, a React 19 web client, a Kotlin / Jetpack Compose Android app and Docker infrastructure.
- Wrote the majority of the codebase, covered by 4,413 backend tests (JUnit, Mockito), 1,254 frontend tests (Vitest) and a Cypress end-to-end suite.
- Designed **Arbitro**, a self-hosted LLM banking assistant with tool calling, multi-step wizards, RAG over the specifications and SSE streaming on Ollama.

Selected Projects

- **Stem Agent**: LLM agent that specializes itself by evolving pipelines of typed tools with six mutation operators, beam search and a MAP-Elites archive; successful pipelines persist across sessions. (Python, LM Studio, Gemma)
- **Serbian real-time speech recognition**: hybrid voice-activity detector feeding a published Wav2Vec2 XLS-R checkpoint, with live Cyrillic output. Group project. (PyTorch, Hugging Face)
- **Nexus**: offline workspace for Windows, Linux and macOS: forty modules on an encrypted SQLite store, with an on-device LLM agent that acts in every module through 207 typed tools, asks before each change and cites the user's notes, packs and offline Wikipedia. Signed updates and content packs. Apache 2.0. (TypeScript, Electron, llama.cpp, SQLCipher)
- **PermaDel**: secure file shredder for Windows with File Explorer integration and an optional Windows Hello check; also wipes free space and strips metadata from photos and Office files. Forensic tests scan a raw disk image. (C#, WinUI 3, C++)
- **Refreshify**: runs 16 built-in Windows repair and cleanup tools in a safe order after creating a restore point, recognizes 15 common failures and fixes the ones it safely can, and checks the PC's health. (C#, WinUI 3)
- **PerfWindow**: real-time hardware monitor: a Rust dashboard fed by an on-demand .NET sensor service that exits with the window, plus an installer that handles its signed driver and elevation. (Rust, egui, .NET 8)
- **Pwrschdlr**: a power scheduler, minus the vowels: shuts down, restarts, sleeps, hibernates or signs out on a timer, on chosen days, or when downloads finish, an app closes or the PC sits idle. (C#, WinUI 3, Task Scheduler)

Also: neural networks, Word2Vec and classical ML from scratch in NumPy, a C++17 compiler and stack VM, an NFC business-card Android app and image processing in MATLAB and Octave. Full list on the portfolio.

Skills

AI and ML	PyTorch, TensorFlow, scikit-learn, Hugging Face, Ollama, LM Studio, RAG, tool calling, ChromaDB
Languages	Java, Kotlin, Python, TypeScript, C#, C++, Rust, SQL
Backend	Spring Boot, Spring Security, JPA/Hibernate, REST, SSE, FastAPI
Frontend and mobile	React 19, Vite, Tailwind CSS, Zod, Jetpack Compose, Hilt, Room
Testing	JUnit 5, Mockito, Vitest, Cypress, xUnit
Data and DevOps	PostgreSQL, MySQL, Oracle, SQLite, Supabase, Docker, Kubernetes manifests, GitHub Actions
Desktop	WinUI 3, Windows App SDK, Electron, egui, Inno Setup

Education and Languages

BSc Computer Science 2023 – expected 2026

School of Computing (RAF), Union University, Belgrade

Computer Science studies 2018 – 2023

Faculty of Mathematics, University of Belgrade

Languages: Serbian (native), English (full professional proficiency).
Other: Karate black belt (1st Dan), elementary music school (piano), driving licence (B).
